

## MaxAir – Database Backup

A backup of the current MaxAir database can be created and Emailed to any chosen recipient.

In order to use this feature, an Email account must already have been configured.

Select the Backup option from the Settings/System Maintenance menu.

### Database Backup

Full database backup takes quite a while to complete. Backup will be sent to the below email address.

**Email Address** If you changed your email address make sure to click save first

somebody@gmail.com

Update Email Address
